ULTIMATE GYM SOLUTIONS

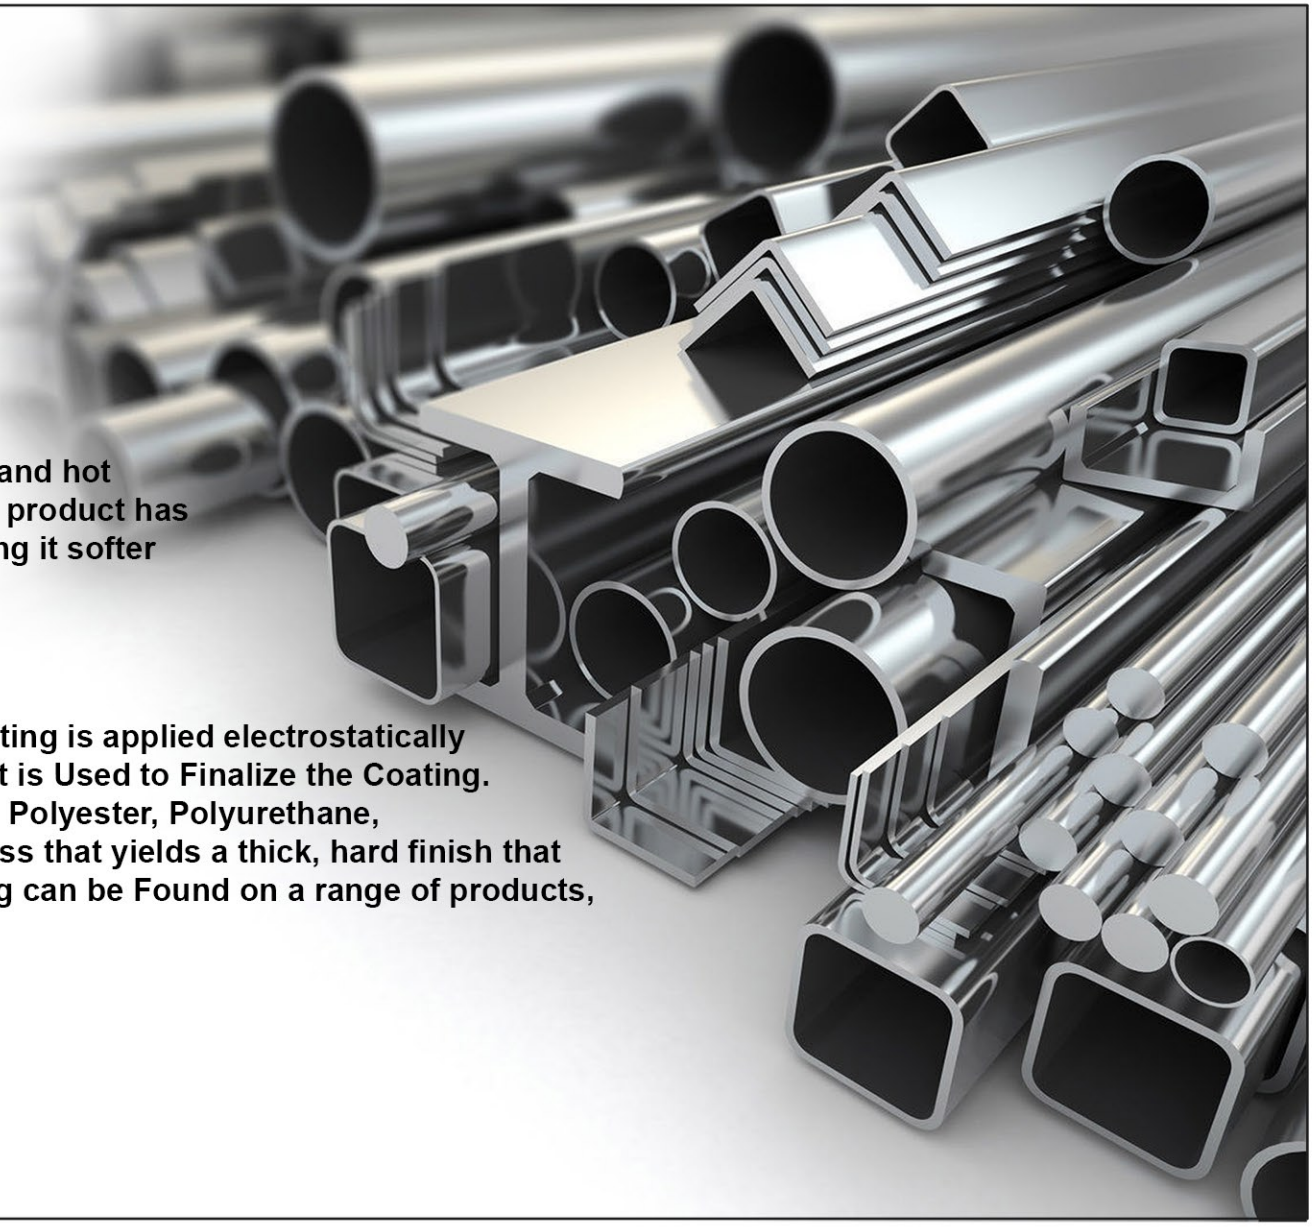
PRO ULTIMATE

MATERIALS USED

SPECIFICATIONS

- **MATERIAL- STEEL SECTION**
- **SIZE- 4 IN X 2 IN**
- **GAUGE- 12 GAUGE**

Cold Finished bars are typically harder to work with than hot rolled due to the increased carbon content. however, this cannot be said about cold rolled sheet and hot rolled sheet. With these two products, the cold rolled product has low carbon content and it is typically annealed, making it softer than hot rolled sheet.



- **COLOR USED- POWDER COATED PAINT**

Powder Coating is a finishing process in which a coating is applied electrostatically to a surface as a free-floating, dry powder before heat is Used to Finalize the Coating. The powder can be made of any number of products: Polyester, Polyurethane, Polyester-epoxy. Powder Coating is a finishing process that yields a thick, hard finish that is tougher than conventaional Paints. Powder Coating can be Found on a range of products, from household appliances to automobile parts.
